

Little Traverse Conservancy Summer Classes at the Pellston Village Library

Life in Water

Tuesday, June 22 @ 11am - 12:30pm

Ages 6-12

*Parents not required to attend

Children will have the unique opportunity to collect and identify aquatic insects in the beautiful Maple River. Through careful observation, we will gain an appreciation for the diversity of life found in freshwater. Sketching and discussion will help students better understand animal adaptations and how aquatic life determines water quality. Dress to get wet!

Wilderness Survival Skills

Thursday, July 8 @ 2:30 - 4pm

Ages 7-12

*Parents not required to attend

This course introduces the skills and mindset needed in a wilderness survival situation. Session will cover basic introduction to the following abilities: Importance of attitude, self-reliance and sound decision making, being prepared and informed before venturing out, and strategies for addressing a survival situation. This program will primarily focus on shelter building techniques and fire building

Mammals and Camouflage

Monday August 9th @ 11am to Noon for ages 5-12

Description pending
